## Product details

Power at the ready! We've taken the hassle out of charging. Our onn. Multi-Port Charging Station packs a punch – it's a 3-in-1 charger with 1 USB and 2 USB-C ports delivering 100W of power! It plugs directly into a wall socket so you don't have to mess with any extra chargers, and you can have a dedicated power station at the ready. Surf onn.™ We're onn. to something here. We took the hassle out of buying electronics and built a brand that's fresh and simple. With delightful pops of color, finding the right product has never been easier. Say goodbye to stressful decision-making and fear of the electronics aisle. Our mission is simple... to deliver great products and make it easy. Choose onn.™ and get back to using your brainpower for the important things in life.. like pondering the question, "What should I binge watch this weekend?"

- 100W Multi-Port Charging Station 3-in-1 Charger, White,
- Over-current/heat and short-circuit protection
- Uses GaN Technology for more efficiency in a smaller package
- LED Power Indicator
- Works with most USB-C® charged devices including Apple, Dell, HP, Asus, Acer, Lenovo, onn™, Samsung, Sony and Toshiba
- Input: AC 100-240V (50/60Hz)
- Output: Single-Port Charging-  
USB-C1: DC 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A (100W Max)  
USB-C2: DC 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/2.25A (45W Max)  
USB-A: DC 5V/3A, 9V/2A (18W Max)
- Output: Two-Port Charging-  
USB-C1 + USB-C2: 65W Max + 30W Max  
USB-C1 + USB: 65W Max + 18W Max  
USB-C2 + USB: 25W Max (Shared)
- Output: Three-Port Charging-  
USB-C1 + USB-C2 + USB: 65W Max + 25W Max (Shared)

#### Most helpful positive review

★★★★★

##### Makes Life Easier

This Onn Charger is great! It has 3 ports to charge 3 devices at once ~ smartphone, laptop, tablet, usb fan, etc. It works very well. It's a touch on the heavy side. It has a heavy duty wall plug in that can be plugged in while using or removed while transporting. Its very handy & useful. Instead of using 3 wall plug ins, this only needs use of one. I'm very happy with this 3 in 1 charger! It truly makes life easier!

##### Can't reach 100w capacity

I like the charging station due to the multiple ports. However, when I plug it into my computer which is 96w, it says the charging station is weak and the computer may not function well. When I plug the Anker 100w charger, there is no such warning.

##### Fantastic Surf ONN USB-C and USB Charging Station

The Surf ONN Multi-Port Charging Station has 2 USB-C and 1 USB Ports. It's a slim compact design. It uses the GaN technology for more efficient charging. It's lightweight and fits nicely in my carrying case so I can take it with me wherever I go. I used it to charge my tablet and glucometer. Both charged up to 100% without a problem. Very nice simple design. Very efficient. I'll be using it for years to come.

##### A good thing to have.

This is a must have to charge more than one item at a time. I can plug in my doorbell and not lose an outlet, but have it in the same place as my phone charger, all in one location. I can locate this where it will be the most beneficial. I can use the USB port for my phone and that leaves the phone charger available for my doorbell. If I need a USB-C charger port, I won't have to get another additional charger, this has two of those ports. I will have the two sizes for any phone available. The need always arises, so that won't be an issue next time I have to have one available. Either way this is still a necessity to be prepared with both size of charging ports, one for my laptop, phone, and it can be conveniently located in one lo...

##### Handy

This power station is very handy. It has 3 charging ports for convenient charging of all my devices. Finally I can charge my phone, Ipad, and pedicure equipment without spacing things all over the house. It plugs into any outlet so I don't have to use a computer for power. It's white also which I like. It has a led indicator light and over-current protection. Very nice

##### Excellent Multi-Port Charging Station

The ONN. 3-in-1 Charger offers so very much. The multi-port charging stations offers 2 USB-C & 1 USB ports. The 3-port workspace charger has 100W maximum charging and uses GaN technology for more efficient charging. The output for each port will vary depending on how many ports are in use at the same time (see attached photo). The Multi-Port Charging Station has LED Power Indicator, and Over-current/heat and short-circuit protection. Also 6 ft power cord included. Really nice charging station helps to reduce adapters, wires and outlets needed. I highly recommend this multi-port charging station.
